DC is okay, class is a little boring. Sounds like you've got things under control. I will catch up with you in Philadelphia next week, let me know if need anything in the meantime.

Steph

Stephanie,

No follow up at t his time, but will give you an update.

1. [Ex. 4 - CBI] now has control of the _EPA file. He is updating the lab info when received from Ft. Meade. This is going well. [Ex. 4 - CBI] has done the first project review. [Ex. 4 - CBI] has the write-up but we have not received any comments. I will forward the email from [Ex. 4 - CBI]
2. Sandra is working on the getting the second submission historical data into the _Historical database. Everything in the second submission is in a pdf and is consistent. She is working through her procedures. Enforcement is going to request all of the Cabot data in an electronic format. Because of this, [Ex. 4 - CBI] is only working on the second submission. She is following your guidelines to only look at a document once, and both Rich R and Rich F is aware of this.
3. I was in Philadelphia yesterday for the pre-meeting . It was decided that Rich F., Rich R., Dennis C, and I would attend the meeting. There are others from legal, water, etc, but I don't know the names. Tthe final count was over 20 people. During the meeting we discussed the 104e letter and the need to get "electronic" data. That is why legal is following up.
4. Both projects are being published. The passwords are Proj1638 for _EPA and Proj1638 for _Historical.
5. [Ex. 4 - CBI] and I will be working out of Edison next week. You are welcome to join us, or just come for a visit remembering I will be in Philadelphia on Wednesday.

I'm flying home tomorrow, but going to stay in Allentown tonight.

Thanks for checking. How is/was DC?

- John

Subject: Hi

How's it going at Dimock? Are you leaving today? Do you need me to follow up on anything?

Steph
